Danger, Beware!

The treacherous waters of Indian lake again have taken a heavy toll of life. Cutting short the careers of three well known Lima men, this body of water which has a long list of tragedies to its account, again impresses upon everyone the dangers to be encountered within its shores.

The large artificial lakes to the south are wonderful resorts and afford people of this part of the state recreation not usually found inland where natural lakes do not abound. Their usefulness along this line should be maintained, but the very nature of them make death traps in bad weather for the person who does not know every nook and corner_

Precautions should be taken by the state to lessen the tragedies there, particularly at seasons of the year when the weather is bad and novices are likely to run into unexpected dangers with which they are not prepared to cope.

The Lima men who went down in a sudden wind storm there knew the lake well. They were capable in handling boats, yet they drowned almost within reach of land. If men of their experience cannot overcome the obstacles to be faced, those of less experience would have little or no chance in such a predicament and therefore should take no chances.

The Surrender

Can it be possible! Another Armistice Day. Six years since the last shot was fired in the World War. The quicksands of time swallow rapidly.

You can burn a forest to the ground

Come back next year, green saplings are rising from the ashes, One generation, as man measures it, and you'd never know there had been a fire.

So with the World War. Recovery—rebuilding—were inevitable. They have, how—the formal smaller in the west. But the majority building—were inevitable. They have, how—the formal smaller in the west. But the majority building were involved as a time formal in the west. But the majority building on the part of your last letter to me this part of your last

istic hoped. Most of us feared that Europe would be a desolation for years and years. Instead, we find the destroyed already 10built amazingly close to pre-war conditions Youth is growing into manhood. The loss in man-power is rapidly being replaced.

'One thing will last for generations—debt. And with it, high taxes. Monuments to the hideous futility of war.

As for the war itself, sixty Armistice Days rather than six must pass before the world will know the real effects of the conflict on white civilization. This year one thing at least is certain-Europe is infinitely farther from a resumption of hostilities than on Nov. 11 a year ago.

Correcting Children

A Cleveland man was sent to the workhouse for two months last Saturday for slapping his baby daughter. His wife preferred the charge and then begged the court to show mercy. But as soon as the judge learned that the father had struck the infant, he imposed the sentence.

What would be the situation if every parent in Lima were to be sentenced for resorting to corporal punishment?

We can remember when we were a kid that dad wasn't hesitant about "tunin' " us up when he thought we needed it. Sometimes, then, we thought he was harsh. Today as we look back and think over many Compare, next time you see a 1924 freight in the constitution of many a boy of of the things that escaped his notice and train whiz by. We should teach more of your age, Pete Now I want to be over the things for which we were punished, it this, less of the history of destruction.

we must consider him not only just, but

Some argue that corporal punishment is not necessary in rearing children. We! might agree that it is not with some types of children, but with others it IS necessary and if properly administered is of inestimable benefit to the child.

The old adage about sparing the rod and spoiling the child still holds in our modern day. We may reach so high a plane sometime that it will be out of date, but with life as it is today parents must look to the welfare of their offspring and decide upon

Too many persons correct children in the wrong manner. They go about it in a way that tends to make defiant the little ones, even to "harden" them in a manner. Then the parent is at fault and is not doing his or

In the administration of punishment, parents must be careful that a lesson is taught -a lasting lesson-that will make for better conduct on the part of the child and not tend to create a spirit of defiance and temper that, continued, is dangerous.

Proper training of children today is one of the biggest problems we have. In many instances it is the parents who need training to fit them for the job. It is our belief that any child can be made into a law-abiding, useful citizen if his training and environment are correct. Heredity counts a great deal, but at the risk of an argument with those who hold that it plays a major part, we believe it is small compared to general influences of home and surroundings

2******************* Home-made Remedy Stope Coughs Quickly 1

The best cough medicine you ever beed. A family supply easily and quickly made, have about \$2, *+++++++++++++++++

You might be surprised to know that the best thing you can use for a severe cough, is a remedy which is easily prepared at home in just a few moments. It's cheap, but for prompt results it beats anything else you ever tried. Usually stops the ordinary cough or chest cold in 24 hours. Tastes pleasant, too—children like it—and it is pure and good.

Pour 2½ ounces of Pinex in a pint bottle; then fill it up with plain granulated sugar syrup. Or use clatified molasses, honey, or com syrup, instead of sugar syrup, if desired. Thus you make a full pint—a family supply—but costing no more than a small bottle of ready-nade cough syrup.

And as a cough medicine, there is really nothing better to be had at any price. It goes right to the sput and gives quick, lasting ichief. It promptly heafs the inflamed membranes that line the thront and are the sput are sput at the sput and are the sput and are the sput are sput at the sput are sput at the sput are sput at the sput are sput are sput and are sput are passages, stops the annoying throat tickle, loosens the phlegm, and soon your cough stops entirely. HARRIS' PSYCHOLOGY WINS WORLD'S SERIES

NEW YORK - (By Associated Press) - The psychology employed by Manager Stauley Harris of the Washington American handling his pitchers in the final game of the 1924 world's series which has been the subject of much speculation ever since, was revealed today by a member of the Washington team close to Harris

The number of innings each one of the four pitchers who participated in the game was at work, and the exact time of their entrance and departure were outlined by Harris before the teams took the field, according to the informant. And this schedule was

followed to the letter except for two circumstances one of which' was the fact that the game went into extra innings The other exception was in the

"Still fresh - really?"

Yes, indeed . . . this cake will stay fresh for days . . .

it's made from the new Kitchen-tested Cake Flour Too many women blame themselves-or their ovens-for cake failures, when many times the flour is to blame. Just

any kind of flour will not make a good cake. Flours do not act alike. Even the same flour may not always act in the But now with the new Gold Medal Cake Flour-the most mexperienced can make a perfect cake. Every time! For this new flour is Kitchen-tested—the one sure proof that your cake flour will always make a perfect cake.

In our big kitchen-my staff and I make cakes from every batch of this cake flour. Every cake must be perfect. A delicate and melting flavor. A light and tender texture. And every cake must keep its original freshness 3

This new cake flour, madam, Kitchen-tested-to give you a perfect cake every time-one that stays fresh 3 whole days. Try it for your own delight. Just 'phone your grocer
